

PROTO

Folder System for Proto Cloud

1. Start by logging into your Proto Cloud account and going to your content page.
2. In this page, there are two different ways of creating a folder to use for your content. The first is to click the folder with a plus sign in the upper right part of the page.

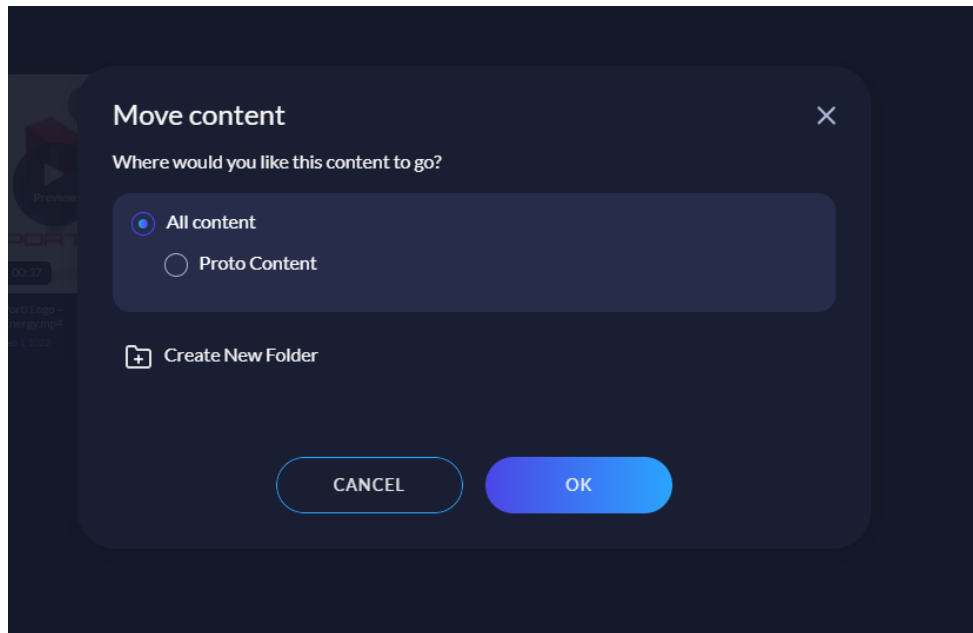

3. A pop-up will appear asking to name a folder. Once you enter a name, press OK and the new folder will show up next to your content.
4. You can then click the three dots on a piece of content and click "Move To".

PROTO

5. A new window will open asking which folder you want to move the content to. Select the one you want and then click “OK”.

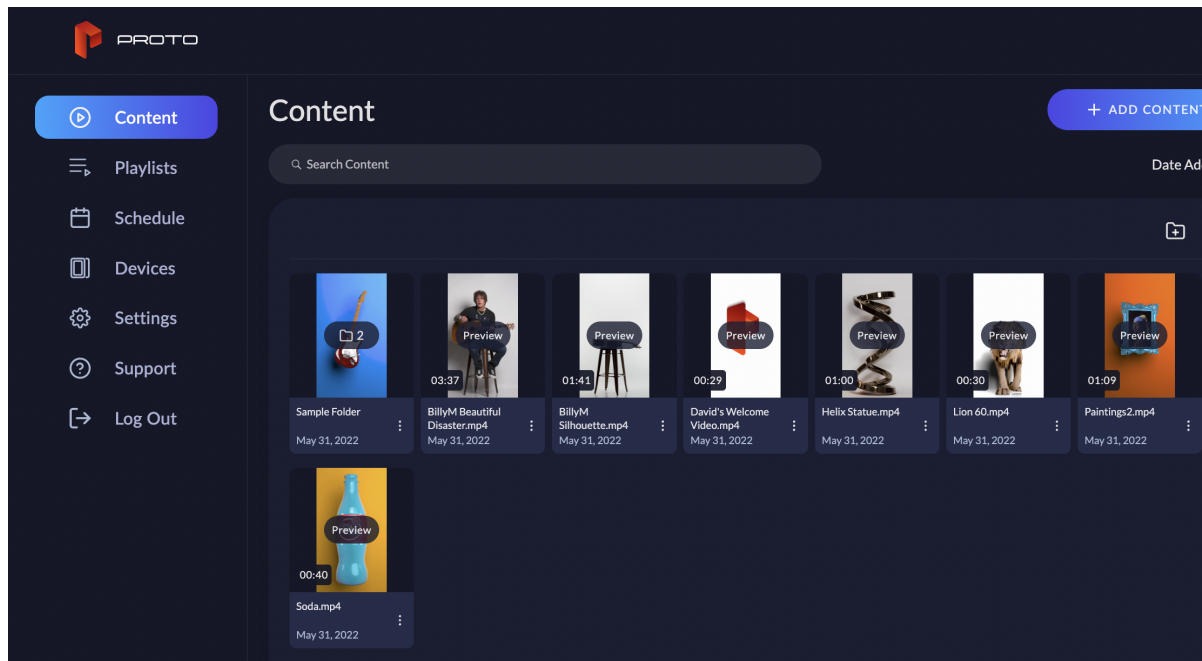

6. This pop-up window is the other way to create a folder. Simply click “Create New Folder”, give it a name and click “OK”. Then you can select that folder to move content to.

Subfolders

PROTO

Users will have the ability to create folders within folders for better organization.

To create a subfolder, simply dive into an existing folder. Once inside you can click the folder icon with the + symbol in the upper right side of the page (underneath the Sorting dropdown).

PROTO

The screenshot displays the Proto web interface. On the left is a dark sidebar with a navigation menu containing the following items: 'Content' (highlighted in blue), 'Playlists', 'Schedule', 'Devices', 'Settings', 'Support', and 'Log Out'. The main content area is titled '< Sample Folder' and features a search bar labeled 'Search Sample Folder'. Below the search bar, there are two video thumbnails. The first thumbnail is titled 'Guitar Extended.mp4' with a duration of '01:00' and a date of 'May 31, 2022'. The second thumbnail is titled 'Watch.mp4' with a duration of '01:00' and a date of 'May 31, 2022'. In the top right corner of the main area, there is a 'Date Ad' label and a small square button with a plus sign inside, which is highlighted by a blue box and a blue arrow pointing to it from the right.
